14-Day Launch Sequence

Domain Warm-Up to Live Campaign Timeline

Prepared for ConvergeFlow

April 2026

Bold ideas wait for no one

Every new ConvergeFlow user goes through a 14-day automated launch sequence. The user completes 5 clicks on Day 0 and does nothing else until Day 14, when their first campaign goes live. Everything in between is handled by the platform automatically.

Key principle: The user does nothing after Day 0. They get one notification on Day 14 saying their emails are going out.

Day-by-Day Timeline

Day	Phase	Actions (Automated)	Volume	Status
0	Onboarding	User completes 5-click wizard: Auth > Domain > Mailbox > Industry > Template	0	RED
1-3	DNS Setup	DNS propagation & domain verification. Mailforge configures DKIM, SPF, DMARC.	0	RED>YLW
4-7	Early Warm-up	Mailbox warm-up begins. Mailforge sends/receives in warm-up network.	5-10/day	YELLOW
8-10	Ramp Up	Warm-up volume increases. Inbox placement testing via Mailforge API.	10-20/day	YELLOW
11-13	Final Warm-up	GLM generates first campaign emails. Lead list pulled from APIs and verified.	20-30/day	YLW>GRN
14	GO LIVE	Campaign goes live. User notified. Dashboard shows activity.	20-50/day	GREEN

Post-Launch Operations

Once a user's campaign is live (Day 14+), the following automated operations continue:

- **Daily sends:** 20-50 emails per day, paced across optimal hours
- **Reply monitoring:** Push notifications within 60 seconds of reply detection
- **Bounce tracking:** Campaigns auto-pause if bounce rate exceeds 5%
- **Domain health:** Daily reputation checks via Mailforge API
- **Lead refresh:** Stale leads (90+ days) flagged for re-verification
- **Scaling path:** 'Book a Call' CTA presented when user requests higher volume

User Communication Schedule

Day	Communication	Channel
0	Welcome: 'Let's get you some customers.'	In-app + Email
1	DNS: 'We're setting up your email. Nothing to do.'	Email
7	Progress: 'Halfway there. Your inbox is warming up.'	Email
13	Preview: 'Tomorrow your emails start going out.'	Push + Email
14	Live: 'Your emails are going out. Sit back.'	Push + Email
21	Check-in: 'Here's how your first week went.'	Email
