

VARRITECH

Run-Rate Cost Model

Monthly OPEX Breakdown: \$119-\$274/mo

Prepared for ConvergeFlow

April 2026

Bold ideas wait for no one

Service	Provider	Monthly Cost	Notes
Email Infrastructure	Mailforge	\$20-50/mo	DNS, provisioning, warm-up, IP rotation
LLM Inference	Ollama	\$20/mo flat	Replaces ~\$2k/mo GPU cluster
Lead Generation APIs	Apollo, A-Leads, Outscraper, Snov.io, D7	\$30-80/mo	Multi-provider, pay-per-use
Hosting & CDN	Vercel + Cloudflare	\$20-40/mo	Bot protection included
Database	Firebase	\$9-25/mo	General data storage
Vector DB (RAG)	Supabase	\$0-25/mo	Free tier initially
Auth	Clerk	\$0-25/mo	Free tier up to limit
Error Monitoring	Sentry	\$0-9/mo	Free tier initially
Logging	GCP Monitoring	\$0-20/mo	Slack alerts integration
Payments	Stripe + Paddle	\$0/mo fixed	Transaction % only

TOTAL MONTHLY OPEX: \$119 - \$274/mo

Scale Scenarios

Phase	Users	Est. Monthly Cost	Key Cost Drivers
Pre-launch	0 users	~\$119/mo	Base infrastructure costs only
Early Traction	1-50 users	~\$174/mo	Lead API usage, Clerk auth scaling
Growth	50-200 users	~\$274/mo	Higher lead API, Firebase scaling, support
Scale Trigger	200+ users	~\$2,000+/mo	GPU cluster for self-hosted LLM

Breakeven Analysis

At \$300/month per Self-Serve customer, ConvergeFlow reaches breakeven at 1 paying customer. This is possible because the entire infrastructure runs on managed services with minimal fixed costs.

Metric	Value
Self-Serve Price	\$300/mo
Pre-launch OPEX	\$119/mo
Breakeven Point	1 customer
Gross Margin (1 customer)	~60%
Gross Margin (50 customers)	~98%
DWY Price (OpenClaw)	\$500/mo
Enterprise Setup	~\$3,000 + retainer

Cost Advantage: Self-Hosted LLM

The single largest cost advantage ConvergeFlow holds over competitors is the self-hosted LLM via Ollama. While competitors using OpenAI or Anthropic APIs pay per-token (costs scale linearly with usage), ConvergeFlow pays a flat \$20/month regardless of email volume.

Approach	Cost @ 1k emails	Cost @ 10k emails	Cost @ 100k emails
OpenAI API (GPT-4)	~\$50/mo	~\$500/mo	~\$5,000/mo
Anthropic API (Claude)	~\$40/mo	~\$400/mo	~\$4,000/mo
Ollama (GLM-5)	\$20/mo	\$20/mo	\$20/mo
Self-hosted GPU	\$2,000/mo	\$2,000/mo	\$2,000/mo
